Cyber and data risks insurance

Background

For organisations that rely on technology, data security and the internet, cyber threats can emerge in many ways; a cyber attack, theft or loss of data, unauthorised system access, or the adverse consequences that arise from email, website and social media misuse.

Markel's cyber risks cover is specifically designed coverage to protect against both the liability which may arise, and the policyholders own losses including legal, IT security and regulatory costs.

Scope of cover

Cover is provided under one insuring clause, with both cyber liability and 'first party' covers under three headings:

- Data protection
- Cyber risks
- Network interruption

Additional addenda are included for court attendance, PR crisis management, ICO and PCI investigations (including fines and penalties).

Target business

Markel cyber risks is a standalone cyber product aimed a SME organisations in a wide range of industries and sectors, including:

- Professional and administration services
- Technology, media and telecommunications
- Manufacturing and industrial
- Wholesale, logistic and distribution
- Construction and property management
- Hospitality
- Charities and voluntary associations

We are always willing to consider new and emerging professions.

This is not a policy document and contains only general descriptions and illustrations. Policyholders must refer to the actual policy issued for the binding terms, conditions and exclusions of cover.
